

## MY HOBBY

By Natalia Czosnyka, VIIIb

Hi! My name is Natalia. I'm 15 years old. My hobby is sport. I've been interested in sport since I was 4 years old. I started playing football at my grandfather's. He has a huge yard. I played there with my dad, brother and grandpa. I really liked playing it. I always played on the pitch with the boys and I didn't care that there were no girls there, I just did what I love. When I was about 11 years, I joined a club where there were other girls. It was great. I went to tournaments. We were not doing very well but no one cared about it.

The second sport I practice is handball. I started playing it about 2 years ago. At the beginning I didn't do well, but after months of training I learned more about this sport. I was also at a handball camp two years ago. I also went to some league matches. Sometimes I had post-workout training and I had to run from one hall to another, but it was great.
